PRAYER MOTHERS

Prayer Mothers

A Prayer Mother's Program was developed for the purpose of mentoring girls. With this ministry, a Christian woman is paired with a club member and they covenant to pray daily for each other. Through this relationship, a bond of love and trust is developed and generational barriers may be prevented. This mentoring ministry can be expanded to include young boys with Christian male role models. The opportunity for blessings and life-changing benefits for youth and adults are unbelievably enormous! When prayer is woven tightly into the program from the beginning, the potential for success will be assured. Our children deserve all the caring, teaching, and training we can give them.
